Lawn Care

Sports Fields
& Parks

Ornamentals
& Nurseries

A flowable micronutrient package complete with urea to enhance and improve color and quality when applied alone, or in conjunction with growth regulators and pesticides.

Recommended Rates

For best results apply as a foliar spray in sufficient water for thorough coverage (typically 1 to 2 gallons per 1000 sq. ft.). When applying higher rates of products, and for maximum plant uptake and safety of all foliar fertility applications, it is best to water product to the soil surface before the warmest part of the day. This product may stain. Keep off unwanted areas: patios, driveways, fences, buildings, painted areas. As a precaution, spray off unwanted areas with water after applying.

Greens & Tees: 2 to 10 oz. per 1000 sq. ft. every 7 to 14 days.

Fairways & Other Turf: 2 to 20 oz. per 1000 sq. ft. every 7 to 28 days.

Trees & Ornamentals: 1 – 8 qts. per 100 gal water as soil drench as necessary.
